

Interactive comment on “Field-Test of Wind Turbine by Voltage Source Converter” by Nicolás Espinoza and Ola Carlson

Nicolás Espinoza and Ola Carlson

ola.carlson@chalmers.se

Received and published: 22 March 2019

(1) comments from Referees: I miss a reference to what seems to be a similar paper: C Saniter; J Janning, "Test Bench for Grid Code Simulations for Multi-MW Wind Turbines, Design and Control", IEEE Transactions on Power Electronics, 2008, Volume: 23, Pages: 1707 - 1715. What does the paper under review add to this one?

(2) author's response: Thank you for the suggestion. The abstract indicate that that paper describe the test setup and not the use of it in a real test with a large wind turbine

(3) author's changes in manuscript: A discussion will be added to our paper and the list of reference will be updated.-.
